- Intelligent Matching
  - Mi-Acclib
  - Mi-CLIP
  - Mi-DSS
- ETL & Data Cleansing
  - MI-Morphe
- Infrastructure
  - Mi-Cloud
- Psychometric – Career Interest Instrument (CII)

### Description

On 19 August 2015, Ministry of Human Resource (MoHR) and MIMOS collaborated on a solution project which is known as Revamp JobsMalaysia2.0 to transform and strengthen the current portal under Public Service Delivery transformation (PSDT) RMK10 initiative. This project is a strategic intent as it serves as Electronic Labour Exchange (ELX) as part of the electronic Government Service Delivery to promote “1Malaysia, 1Career Gateway” for job seekers and employers.

The solution is provided to JobsMalaysia, as the National Placement Centre operating under Human Resource Department of MOHR. MIMOS is poised to deliver its role to create innovative solution to improve performance in terms of quality and quantity of job matching process. There are three unique features provided - User Experience Design (UXD), Automated Online Job Matching Engine and Intelligent Job Command Centre (i-JCC) using spatial data.

### Solution Framework

### Solution Description

With the adoption of MIMOS technologies, JobsMalaysia is able to optimise the use and mobility of workforce in Malaysia.

With accurate and complete data, it provides value to Job Seeker and Employers from various employment requirements using the digitised version of Malaysia Standard Classification of Occupations (MASCO) 2008 which is designed in the form of job ontology

### Features

- User Friendly
- Accurate
- Informative

### Benefits

- Accurate and complete job information to address current employment need
- Spatial data Collection for improved visibility on vacancy and job seeker mobility for efficient National Placement

**MIMOS**
